

PRE PEST-CONTROL TREATMENT

- Put pets outside and secure away from the property or take them away
- Cover fishbowls and tanks with a waterproof cover and turn off/unplug the filter.
- Cover or put all children's toys away.
- Cover baby's bassinet, bed or cot.
- Cover or put all exposed food away.
- Put all bathroom items away i.e., toothbrushes, toilet paper and close the toilet seat.
- Please ensure your bed and pillows are covered with a sheet that will need to be washed afterwards.
- Clear floor space & generally de-clutter. (we treat baseboards, corners, cracks, and crevices)

POST PEST-CONTROL TREATMENT

- Stay out of the house for 3 hours or if sensitive to odours and chemicals 4 hours.
- On return open windows to ventilate thoroughly when you return after three or four hours.
- Wipe down all benchtops and dining tables.
